

AUDI

2027 Q9

Edition 1

BRAND NEW RHD

The Audi Q9 is the largest Audi built to date — 5.31 metres long on a 3.14-metre wheelbase, with seven seats as standard and every seat in all three rows heated. In right-hand drive it comes as Edition 1 or Vorsprung, with one engine: a 3.0-litre V6 TDI of 299 PS and 630 Nm, with an MHEV plus mild-hybrid system and an electric powered compressor, driving all four wheels through quattro. Adaptive air suspension and all-wheel steering are standard, as is a panoramic roof of more than 1.5 square metres that switches to opaque in nine segments. Vorsprung adds Audi's digital matrix LED headlights, curved digital OLED rear lights, automatic doors and the Bang & Olufsen 4D Premium sound system, and it is the grade that can be ordered as a six-seater with the Lounge Pack. The Q9 is built in Bratislava, Slovakia, and the right-hand-drive specification on this page is the United Kingdom's. Our

own teams can export the Q9 from the United Kingdom, Australia or New Zealand; a car from Australia or New Zealand follows that market's own grade and equipment, which we confirm for the exact car before you commit. Choose the grade, the paint and the interior, tell us your destination port, and you see the landed figure for that exact car before anything is committed. Colour swatches are our approximation of the factory paint, not a colour match.

Why import this Q9

01 **You import the right-hand-drive car**
The Q9 is built in Bratislava for markets on both sides of the road, and our own teams can export a right-hand-drive Q9 from the United Kingdom, Australia or New Zealand. That gives you three source markets for a market that drives on the left, without waiting for a local launch where you are.

02 **You choose the grade before you commit**
Edition 1 or Vorsprung, seven seats or the six-seat Lounge Pack, one of eight paints and four Fine Nappa interiors. Tell us the exact car and your destination port, and the landed figure is worked out against that car — the purchase price, freight, marine cover and the duty and tax lines, itemised, before any money moves.

03 **You see the tax line for a 3.0-litre diesel first**
Where a market taxes by CO, or engine size, a 299 PS V6 diesel at 204–209 g/km sits near the top of the scale. You get that position confirmed for your own country before you commit, so the number you decide on is the number you pay.

04 **Seven seats, and 3,500 kg on the hook**
Audi rates the Q9 to tow up to 3,500 kg braked with the optional tow bar, with seven seats and up to 2,308 litres of load space behind the front row — the capacity of a full-size SUV in the largest Audi built to date.

Specification

GRADE	Edition 1
ORIGIN	Slovakia
ENGINE	3.0 litres 3.0-litre V6 TDI with MHEV plus mild-hybrid system and electric powered compressor
MAX POWER	299 PS (220 kW)
MAX TORQUE	630 Nm
TRANSMISSION	Tiptronic automatic, quattro permanent all-wheel drive
FUEL SYSTEM	Diesel, mild hybrid
STEERING	Right-hand drive (RHD)
EMISSIONS	WLTP combined CO, 204–209 g/km

LENGTH	5.31 m
WIDTH, MIRROR TO MIRROR	2.21 m
HEIGHT	1.81 m
WHEELBASE	3.14 m
0–62 MPH	6.5 seconds
BOOT CAPACITY	Up to 850 litres with the third row folded; 2,308 litres with the second and third rows folded
TOWING CAPACITY	Up to 3,500 kg braked, measured on a 12% gradient, with the optional electrically deployable tow bar
WLTP COMBINED FUEL CONSUMPTION	35.5–36.2 mpg (Edition 1); 35.6–36.4 mpg (Vorsprung)
WLTP COMBINED CO_2	205–209 g/km (Edition 1); 204–208 g/km (Vorsprung)
SEATING	Seven seats as standard; six with the Lounge Pack on Vorsprung
HYBRID SYSTEM	MHEV plus, with a belt alternator starter, a lithium iron phosphate battery and an electric powered compressor of 7.5 kW peak
BUILT AT	Volkswagen Group plant, Bratislava, Slovakia
